

DISTRICT MAKES THE “CONNECTION” WITH STUDENTS

For the fourth year in a row, AVAPCD Community Relations & Education staff participated in “Salute to Youth – The Career Connection” on April 27th, which was held at Plant 42 in Palmdale. The District’s display included a working ozone monitor, and hand-out materials on career opportunities in air quality management and other related environmental fields. An estimated 2,400 10th-12th grade students were on hand to meet career professionals representing over 100 companies, agencies, schools, and military services.

Pictured at left are just a few of the budding air quality engineers, air monitoring technicians, and community relations staff who stopped by the AVAPCD’s booth during the annual event.
